# Personalise your kit

Make your club stand out by creating a real team spirit and a sense of belonging. Personalise clothing by adding names, numbers and initials all available at MR Cricket Hockey.

## Printing and embroidery

Embroidery is best for creating logos on thicker garments, such as polo shirts, jumpers, jackets or hoodies. Embroidery on garments are long lasting, durable and vibrant. Embroidery may cost a little more than traditional printing, however the longevity makes it cost effective.

Printed / heat sealed logos also known as heat transfer printing, is the process of applying heat transfer materials to various garments with a heat press. Excellent for very detailed or large logos and especially good for thin breathable modern fabrics used in team wear. With larger designs, we would recommend printing over embroidery.

Dye-sublimation printing yields beautiful and permanent colours that are embedded in the substrate or fabric, rather than printed on the surface. Images on the fabric won't fade or crack even after multiple washings. You can incorporate your club crest and any number of sponsor logos all in the price of the garment. Very cost effective and a great option if you have multiple sponsors.
